

## WORKSHOP IN THE PREPARATION OF HISTORICAL MATERIAL FOR CLASSROOM USE

The International Study Group on the Relations between the History and Pedagogy of Mathematics will sponsor a two-day working session at the University of Michigan prior to the 1983 annual meeting of the National Council of Teachers of Mathematics, which will be held in Detroit, April 13-16.

It is proposed to design three experimental "units," one each in algebra, geometry, and analysis. Space and material limitations will limit the participants to 20-30. They will be selected in order of receipt of applications from persons with special concern and experience in the use of historical materials in teaching.

The results of the workshop will be reported at an NCTM session sponsored by ISGHPM.

For further information and application forms write Phillip S. Jones, Mathematics Department, University of Michigan, Ann Arbor, MI 48109.

## ERRATUM

On page 452 of Volume 7, Number 4, the name of the publisher of Ralph E. Weber's *United States Diplomatic Codes and Ciphers 1775-1938*, Precedent Publishing, Inc., was omitted. Readers who wish to order copies should write to the publisher's order address: Precedent Publishing, Inc., P.O. Box 1005, South Holland, Illinois 60473.
